

KKEF Young Environmentalist Internship Award 2007 Recipient

Ms. Regina Cheah

Internship to: Asian Institute of Technology, Bangkok, Thailand

Title of Paper: Environmental Engineering and Management Field of Study Solid Waste Management

Regina has a double degree in Marine Biology and Geography from Melbourne University, Australia. Currently she is employed at Global Environment Centre (GEC) as a Projects Officer, where her main responsibilities are conducting programmes on “awareness & capacity building” and “river care”.

Regina also contributes her time to WildAsia as a Research Assistant and Editor. She is currently working together with her local Resident’s Association (Bukit Damansara) to improve their recycling programme.

Her submission essay reflects her strong passion for better management of the earth’s resources and her belief that education can play a vital role in moving forward the level of environmental awareness in Malaysia.
