

KKEF Young Environmentalist Internship Award 2004 Recipient

Salma Mohd Kasim

Internship to: Suwon, South Korea

Title of Paper: Life Cycle Analysis & Design for Environment (Ecodesign)

Miss Salma bt. Mohd Kasim is 32 years old and has a Bachelors Degree in chemical Engineering from the University of Colorado at Boulder, USA. She is currently employed as a Process Technologist by Petronas MTBE plant at Kuantan. In her submission essay, Salma has highlighted the importance of a multi-prong approach to improving the state of environmental management in Malaysia, involving both the improvement of technology, application of a systematic approach to environmental management and the importance of increased environmental awareness. Her essay and subsequent interview has indicated her interest and passion to contribute to improving the practice of environmental management in Malaysia.
